

Because valuable employees stay where they're valued

DID YOU KNOW THAT YOU COULD MEET 80% OF YOUR EMPLOYEES' HEALTHCARE NEEDS FOR AS LITTLE AS \$17 A WEEK?

Show your staff you care when you offer PSIvet Employee Benefits. You can provide exclusive access to affordable, configurable benefits solutions for the mental and physical wellbeing of your staff – and their dependents – no matter your practice size.

INTRODUCING PSIVET EMPLOYEE BENEFITS

PSIvet Employee Benefits is a practice-strengthening initiative that offers affordable, configurable employee benefit solutions developed specifically for independent veterinary practice owners and their staff. PSIvet Employee Benefits empowers practice owners to care for their people and strengthen the practice, forging a proactive business strategy against others competing for your employees.

PSIVET'S BASIC HEALTH PACKAGE

We always need healthcare. We can't always afford it, especially as independent practices. Our Basic Health Package provides an affordable alternative to typical major medical health plans. The service provides preventative care, Telehealth, chronic disease management and discounts on drugs and medical supplies for everyone aged 2 to 65. Access to online mental health and therapist services is included for employees.

MONTHLY SUBSCRIPTION FEES

Employee only	\$75.00
Employee + spouse	\$130.00
Employee + child(ren)	\$185.00
Family	\$240.00

HOW TO ACCESS YOUR BENEFITS

Everything begins with a phone call. If a Basic Health Package member feels ill, the member calls our Central Scheduling Department (it's Spanish-friendly, too). Based on the member's symptoms, our medical staff will provide options for either a Telehealth call or an in-office appointment with a board-certified physician or urgent care facility.

To enroll, call us toll free at 833.249.0166 or email us at EmployeeBenefits@PSIvet.com.

PHARMACY BENEFITS

Our Basic Health Package offers a revolutionary new pharmacy program focused on helping members, with a mission to provide the lowest-priced prescriptions in the industry. We also have pharmacy coaches to help educate patients and offer options for saving even more money with home delivery of prescriptions.

- Over-the-Counter Medications
Our subscription offers the most common over-the-counter medications, such as ibuprofen, acetaminophen, fexofenadine, diphenhydramine and others, at a fraction of the retail price. The little things add up, so we aim to save you money on everyday medications.
- Maintenance Medications
Maintenance medications are prescribed for chronic, long-term conditions (e.g., high blood pressure, high cholesterol, and diabetes) and regular, recurring use. These drugs are considered first-line therapy options, and have been found both safe and effective in treatment of these conditions. The SaveOn Diabetes program provides a FREE meter, low-cost testing strips, lancets and more.
- Acute Medications
In cases of immediate need, we include the top 95 most-prescribed acute medications for a \$5 payment, for up to a 21-day supply at more than 64,000 pharmacies nationwide.
